Addendum # 1 to Bid 002686

Change the above referenced Invitation to Bid to agree with this addendum.

This addendum must be signed and included with bid submission.

Please note: The CALS building will be added to the locations that require weekly pickup as listed in the first question below.

Q. Would it be possible to provide a simple list that aligns the exact anticipated pick-up needs of each individual location?

A. Pickup every Tuesday & Friday:

- MEB – 1901 Perdido St
- School of Dentistry – 1100 Florida Ave.
- CSRB – 533 Bolivar St.
- CALS – 2021 Perdido St.

Pickup twice a month (once every 2 weeks):

- LSU-Crescent Care Sexual Health Center – 3308 Tulane Ave.

Pickup as requested:

- LSUHSC Eleanor McMain School Based Health Clinic – 5712 S Claiborne Ave.
- LSUHSC SBHC – 5625 Loyola Ave
- LSUHSC SBHC – 4000 Cadillac St – McDonogh 35

Q. Who is the current vendor providing services?

A. Medical Waste Management

Q. What is the current per pound disposal fee?

A. \$0.2779 / lb

Q. May vendors propose other pricing such as a minimum pickup or no waste fee or is it mandatory that only a per pound disposal fee be proposed?

A. Per Attachment 1 – Any and all fees or additional charges should be factored into your per pound bid price.

Q. The bid provides an estimated total annual volume of waste that will be generated for all sites per year. Would it be possible to provide a more detailed breakdown on the average number of stops and volume of waste each facility generates per pickup or per year?

A. Number of stops is listed above. Per section 3.1, second paragraph, The annual average volume is expected to be approximately 140,000 pounds (quantity not guaranteed). Estimated volume per pick up location is 60% from the Clinical Sciences Research Building, 30% from the School of Dentistry, and 10% from the Medical Education Building. The other locations are minimal.

Q. The bid states that the Clinical Sciences Research Building will be the only site in need of reusable containers for pathological waste. Is it required that all waste serviced from this facility be treated via incineration or just the pathological waste serviced?

A. It is the expectation that all collected waste be treated and disposed of in accordance with allowable State and Federal Regulations and standards.

Q. Will any of the other locations be disposing of any waste that will require treatment via incineration?

A. It is the expectation that all collected waste be treated and disposed of in accordance with allowable State and Federal Regulations and standards.

Q. If so, which locations and what is the estimated volume of waste serviced would need to be incinerated?

A. It is the expectation that all collected waste be treated and disposed of in accordance with allowable State and Federal Regulations and standards.

Q. Will LSU HSC be willing to negotiate their terms and conditions? If so, should vendors submit their requested edits along with their proposal?

A. Any request for modification of terms and conditions must be submitted for review in advance of bid proposal.

Q. Will LSU HSC be willing to negotiate their scope of work? If so, should vendors submit their requested edits along with their proposal?

A. Any request for modification of scope of work must be submitted for review in advance of bid proposal.

Q. Will LSU HSC be willing to negotiate their insurance requirements? If so, should vendors submit their requested edits along with their proposal?

A. Any request for modification of insurance requirements must be submitted for review in advance of bid proposal.
